Dear Mr. Coppens,

I am responding to your request in my capacity as in-house legal counsel for the hospital.

About the authenticity of the documents – medical reports concerning Mr. Eric LAMAZE (DOB 04/17/1968) purportedly signed by Doctors at the Chirec hospital, after investigation, we can attest that :

The documents on Chirec Cancer Institute's letterhead which are in your possession are fraudulent.

- a) The first document is written in very approximate Dutch and contains the signature of Dr. (Nordeyn) Oulad Ben Taib, neurosurgeon. This document is dated 05 April 2023, the place of writing is indicated "Bruxelas" and the address is that of the "Louise Medical Center", which is not part of the CHIREC hospital group and the telephone number indicated is that of the Louise Medical Center and not a CHIREC number. Dr. Oulad Ben Taib confirmed to me that it was a fraudulent document.
- b) The second document is written in English and contains the signature of Dr. Benoit Pirotte, neurosurgeon. This document is dated August 2, 2023, the address is the Louise Medical Center and the phone number is the one of the Louise Medical Center. The place of writing is indicated "Bruxelas"....

Dr. Pirotte, whom I contacted, answered me in these terms (in French, my translation): *"It's a fake. I never wrote this letter and moreover I have no memory of such a patient. The signature is different from mine. I have never written on behalf of the Chirec Cancer Institute. Finally, when I write in English, I sign "Benoît JM PIROTTE MD PhD"*.

The CHIREC retains the right to lodge complaints against those fraudulent acts.

The present letter is addressed to you without any prejudicial recognition and with reservation of all rights.

Hoping to have been able to enlighten you.

For the CHIREC Hospital General Medical Direction.

Yours sincerely,

Aline DE WALSCHE  
In-House Legal Counsel
